

NTX Select Baseball Player Evaluation Guide

Instructions: Rate each player on a scale of 1 to 5

(1 = Needs Improvement, 5 = Elite). Add specific comments to provide more detail on player strengths and areas for growth.

Category Descriptions:

- **Hitting:** Contact consistency, power, swing mechanics, pitch recognition.
- **Fielding:** Overall defensive skill, glove work, positioning.
- **Grounders:** Ability to field and transition ground balls cleanly.
- **Fly Balls:** Tracking ability, reaction time, securing catches.
- **Throwing:** Arm strength, accuracy, footwork.
- **Athleticism:** Coordination, agility, overall movement efficiency.
- **Speed:** Base running ability, acceleration, quickness.
- **Baseball IQ:** Game awareness, decision-making, instinctive play.

Additional Notes:

Include strengths and weaknesses in the comments section.

Use specific examples when possible (e.g., "Great at tracking fly balls but needs quicker first step").

This format allows for easier scanning and comparison across multiple players.
